Warsawa, Poland

## EXPERIENCE

### Senior Full Stack Developer

#### EcoVadis

09/2022 - 07/2025 Warsaw, Poland

- Designed and implemented the front-end architecture for an AI-driven job search platform, optimizing application performance by 30% and enhancing scalability by 40%.
- Integrated and managed OAuth authentication and advanced caching strategies, ensuring secure, scalable, and high-availability operations in high-traffic environments.
- Developed and optimized high-performance SSR applications using React.js, Next.js, Nuxt.js, and Vue.js, significantly improving SEO and reducing page load times.
- Led and coordinated a cross-functional team of developers and product managers, successfully delivering feature-rich solutions within tight deadlines while maintaining 99.9% system uptime.
- Spearheaded the migration of legacy applications into modern microservices, leveraging Docker and Kubernetes, which improved deployment efficiency by 45%.
- Designed and maintained CI/CD pipelines with GitLab CI/CD, reducing release times from days to hours.
- Implemented unit and integration testing using Jest and Cypress, increasing overall test coverage to 85% and reducing production bugs.
- Collaborated with UI/UX designers to improve user flows and accessibility, resulting in a 20% increase in user engagement.
- Mentored junior developers, introduced code review best practices, and set up documentation standards to ensure long-term maintainability.

### Senior Front End Developer

#### Software Systems

10/2020 - 08/2022 Nysa, Poland

- Designed and developed a custom auto parts sales portal using Vue.js, Laravel, and MySQL, scaling the platform to over 1,000 daily users.
- Led cloud migration initiatives by containerizing services with Docker and VMware, reducing system downtime by 30%.
- Built and implemented internal accounting and inventory management tools using Flask, increasing operational efficiency by 20%.
- Optimized database performance by transitioning frequent MySQL queries to InnoDB and refining indexing strategies, reducing query execution times by 35%.
- Developed REST APIs to support frontend integration and third-party services, ensuring smooth data flow and better system interoperability.
- Collaborated with UI/UX teams to implement responsive, mobile-first interfaces, improving customer engagement and reducing bounce rates.
- Introduced Agile workflows (Scrum/Kanban), streamlined sprint planning, and improved delivery efficiency by 15%.

### Software Developer

#### Info Cubic Japan

11/2017 - 09/2020 Tokyo, Japan

- Assisted in building and maintaining the company's customer-facing platform using React, Node.js, and MongoDB.
- Developed and optimized backend services, improving data retrieval speeds by 15% through effective indexing in MongoDB.
- Wrote clean, maintainable code and adhered to best practices for scalable software development.
- Assisted with the creation of an internal admin dashboard using React and Redux, improving team efficiency by 25%.
- Conducted code reviews for peers, ensuring adherence to coding standards and best practices.
- Collaborated with the product team to identify user needs and improve features based on customer feedback.

## SUMMARY

Senior Full Stack Developer with over 9 years of hands-on experience in building scalable, secure, and high-performance applications across cloud and on-premise environments. My expertise spans modern frameworks such as React.js, Next.js, Vue.js, Nuxt.js, Node.js, and Laravel, combined with strong backend skills in PostgreSQL, MySQL, and MongoDB.

I have a proven track record of **leading cross-functional teams**, mentoring junior developers, and driving projects from conception to production. At EcoVadis, I spearheaded the development of an AI-driven job platform, **improving application performance by 30% and scalability by 40%**, while also implementing advanced security and caching strategies to ensure **99.9% uptime**.

Beyond coding, I bring **DevOps expertise** with Docker, Kubernetes, and CI/CD pipelines (GitLab, GitHub Actions), optimizing deployments and reducing downtime. My approach emphasizes **clean architecture, test-driven development, and agile best practices**, ensuring reliable delivery within tight deadlines.

Passionate about **innovative problem-solving**, I thrive in dynamic environments that demand adaptability, efficiency, and forward-thinking. My goal is to continue building impactful software solutions that blend **user-focused design, performance optimization, and long-term scalability**.

## SKILLS

React.js	Vue.js	Next.js	Nuxt.js
Redux	TypeScript	TailwindCSS	
Node.js	Express.js	Laravel	
Nest.js	PostgreSQL	MySQL	
MongoDB	AWS	Docker	
Kubernetes	VMware	CI/CD	
GitLab	GitHub Actions	Jest	
Cypress	Storybook	Figma	Jira

## EDUCATION

### Bachelor of Computer Applications

#### Nicolaus Copernicus University in Torun

09/2013 - 08/2017
